

The 4 Fish We're Overeating – Ted Talk with Paul Greenberg, Fisherman and Conservationist

Video Qs

1. What does Greenberg mean when he says it's not an unusual human characteristic to reduce the world down to very few elements?
2. What are some of the changes that have occurred in the past 50 years that have led us to now take 80 to 90 million metric tons of fish out of the sea every year?
3. What are some of the issues that come with catching shrimp in the wild? What are some of the problems associated with fish farms?
4. What does Greenberg identify as being a terrible problem, and how do we fix it?
